WHO, HOW, AND WHAT?

Chinese New Year of the Earth Dog starts with a new moon on 2.16.18.

A most happy New Year to you all! This is a very different new year that shifts from Fire element to Earth element. Meaning we go from the fast-moving energies of the “air” to the grounding energy of mother earth. Emphasis here from the earth and dog (it is the 11th animal in Chinese Zodiac of 12) is on steadfast determination, loyalty, holding true blue friends who give strong support and partnership. As the dog loves companionship, so do we this year, find and serve your pack It’s all about honest communication and community, feeling at home in and on mother earth.

Animal “BFF friend” of the dog is the rabbit. The dog forms a powerful triangle partnership with Tiger and Horse. A year of earthly delights as one develops a stick-to-it attitude with help from your friends. Invite and welcome the dog into your home now and tell it what you need, what you desire. Take good care of Rover this year, honor the way the dog comforts and guards both you AND themselves by getting a check-up and for non fur folks...not eating lots of sweets this year...drink water, and lots of good natural food.

Celebrate the final day of the “New to Full Moon” celebration with the Full Moon Lantern celebration giving hugs of love’s light. March 2 is Chinese Valentine’s Day!
